Batch Status & Throughput Summary

Batch details				Attrition (or) Move to different batch					Current State & Throughput	
Wave	Planned HC	In Count	Delta	FX	PST	NST	Total ATT	Movement	Certified	Throughput (%)
1	17	17	0	0	0	0	0	0	0	100%

Training & Content Updates

- All 17 planned trainees attended the training, achieving 100% attendance for Wave 1.
- The Trainer shared Sutherland credentials with all trainees. No credential-related issues were reported, and all trainees successfully set their passwords.
- The Trainer introduced Sutherland, including an overview of Astra and the nature of work handled by the team.
- The Trainer conducted a walkthrough of key internal platforms, including SAP SuccessFactors, iRoz, and Workzone HR, and advised trainees to install the One Sutherland application.
- The Trainer guided trainees to complete the mandatory onboarding courses available in My Learning.

Topics & Activities Covered

- Conducted an icebreaker activity – “Describe & Guess” to encourage team interaction and engagement.
- Provided an overview of Sutherland, Astra, team structure, and work scope.
- Covered access and navigation for key HR and employee platforms.
- SD Manager guided the trainees on transportation access and related support processes.
- Reinforced completion of mandatory onboarding learning modules as part of the initial training requirements.

Action Items

- ID Card: Trainees have submitted their photographs, and the Training Manager has raised the request with the Security Team for further processing.
- MacBook Assignment: Pending completion of BGV clearance by the TA Team.
- Astra Credentials: To be initiated upon successful completion of the BGV process by the TA Team.
- Meet & Greet: Session scheduled with the respective teams to facilitate introductions and team alignment.

Tools Access and Status

- Sutherland credentials – Working for All
- Astra credentials – yet to generate – BGV pending
